

- **Name of the Candidate: Prof. Bibhas Chandra Giri**
- **Membership Number: 0749/B/06/MSL**

About the Candidate

Professor Bibhas Chandra Giri is a distinguished faculty member in the Department of Mathematics at Jadavpur University, Kolkata, with expertise in Operations Research. His research primarily focuses on inventory management, supply chain optimization, production planning, and multi-criteria decision-making. As a prolific researcher, he has authored over 260 papers in leading international journals, with more than 13,400 citations on Google Scholar. His innovative use of mathematical modelling to solve real-world problems in supply chain and logistics has gained him widespread recognition.

Prof. Giri is a Fellow of the Operational Research Society of India and the West Bengal Academy of Science and Technology. He has been featured in Stanford University's world ranking of the top 2% of scientists for last five consecutive years. His academic excellence has earned him prestigious fellowships, including the Alexander von Humboldt fellowship, Fulbright fellowship, Commonwealth fellowship and JSPS fellowship.

In addition to his research, Prof. Giri has supervised 25 Ph.D. candidates and is actively involved in various academic committees and conferences, both in India and abroad. Prof. Giri's contributions have earned him recognition within the mathematical community, making him an influential figure in the field of Operations Research.
